

GET YOUR TOKEN REPLACED AT ANY CC IF IT HAS RUN OUT OF BATTERY!

How to check if your Token is working:

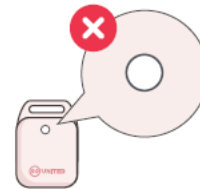

A **blinking green light*** indicates that your Token is working.

**Comes on about once every minute*

If you see a **blinking red light**, this indicates the battery is low.

If there is **no light**, your Token needs to be replaced too.

What you will need to bring along to get your Token replaced:

Your old Token

If you have lost your Token, the first replacement will be free. A fee will be charged for subsequent replacements of lost Tokens.

Your personal ID
(NRIC or Passport)

Please bring along your family members' personal IDs if you are helping to replace Tokens on their behalf.

DON'T BE INVISIBLE TO CONTACT TRACERS!

Ensure your TraceTogether Token is working, and stay protected from COVID-19.
