

HELPING BUSINESSES

CREATING PARTNERSHIPS

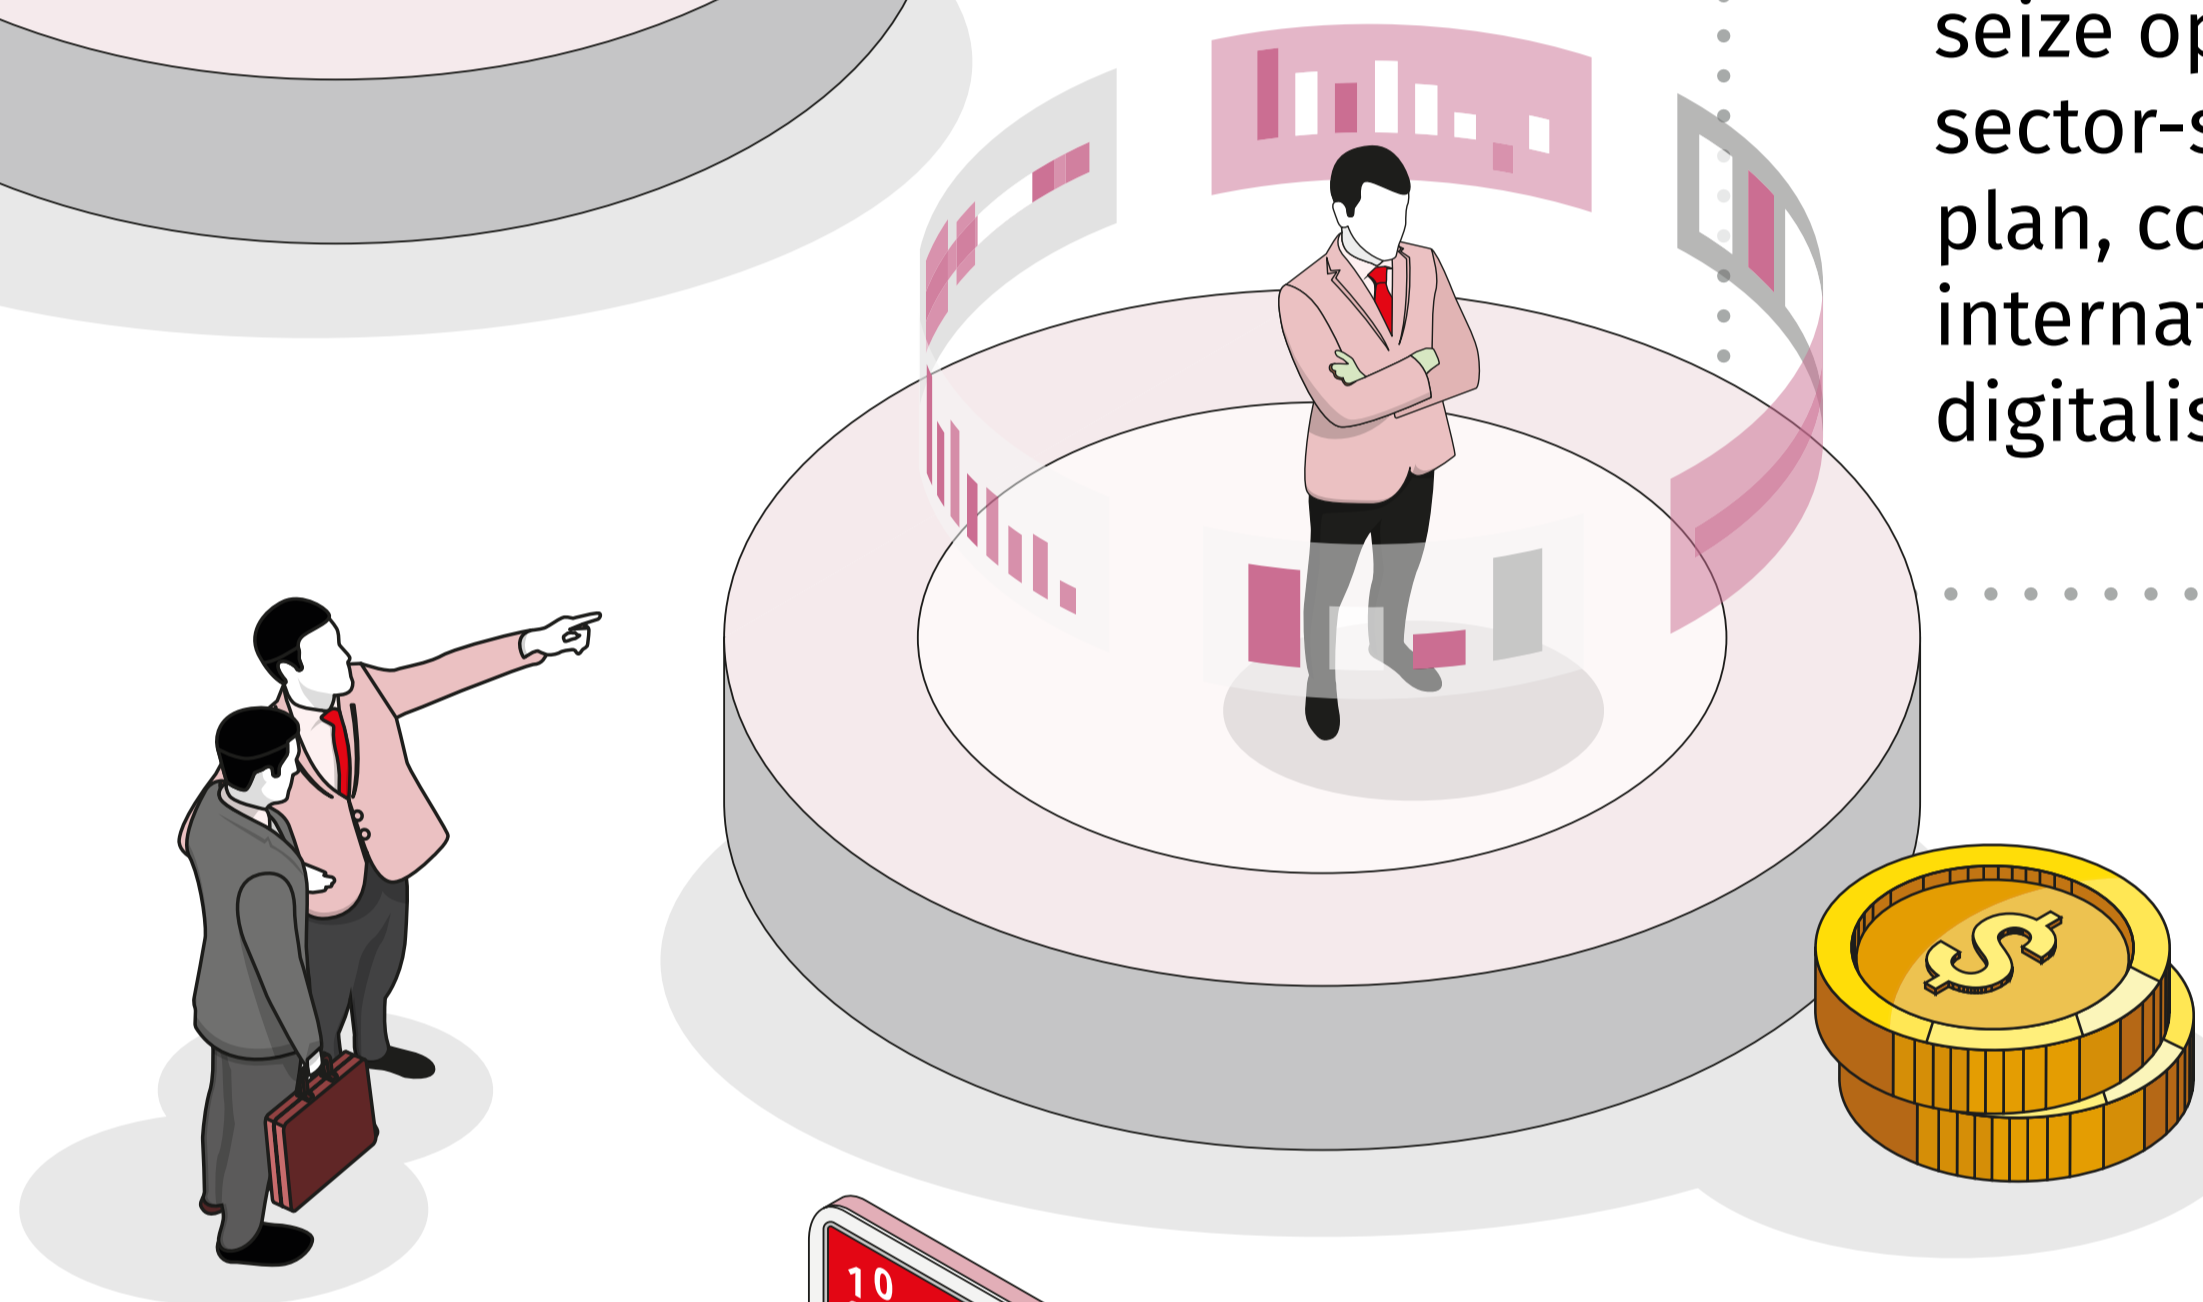

- Partnering local AI company Aicadium and MAS to invest in new **technologies in green finance**.
- Partnered with 13 providers on **HealthCerts** to develop interoperable and secure digital standards to verify Covid-19 test results and vaccinations using cryptographic technologies.

Singapore's HealthCerts is now connected to >700 institutions across 30 countries and regions such as Canada, France, Hong Kong and Indonesia.

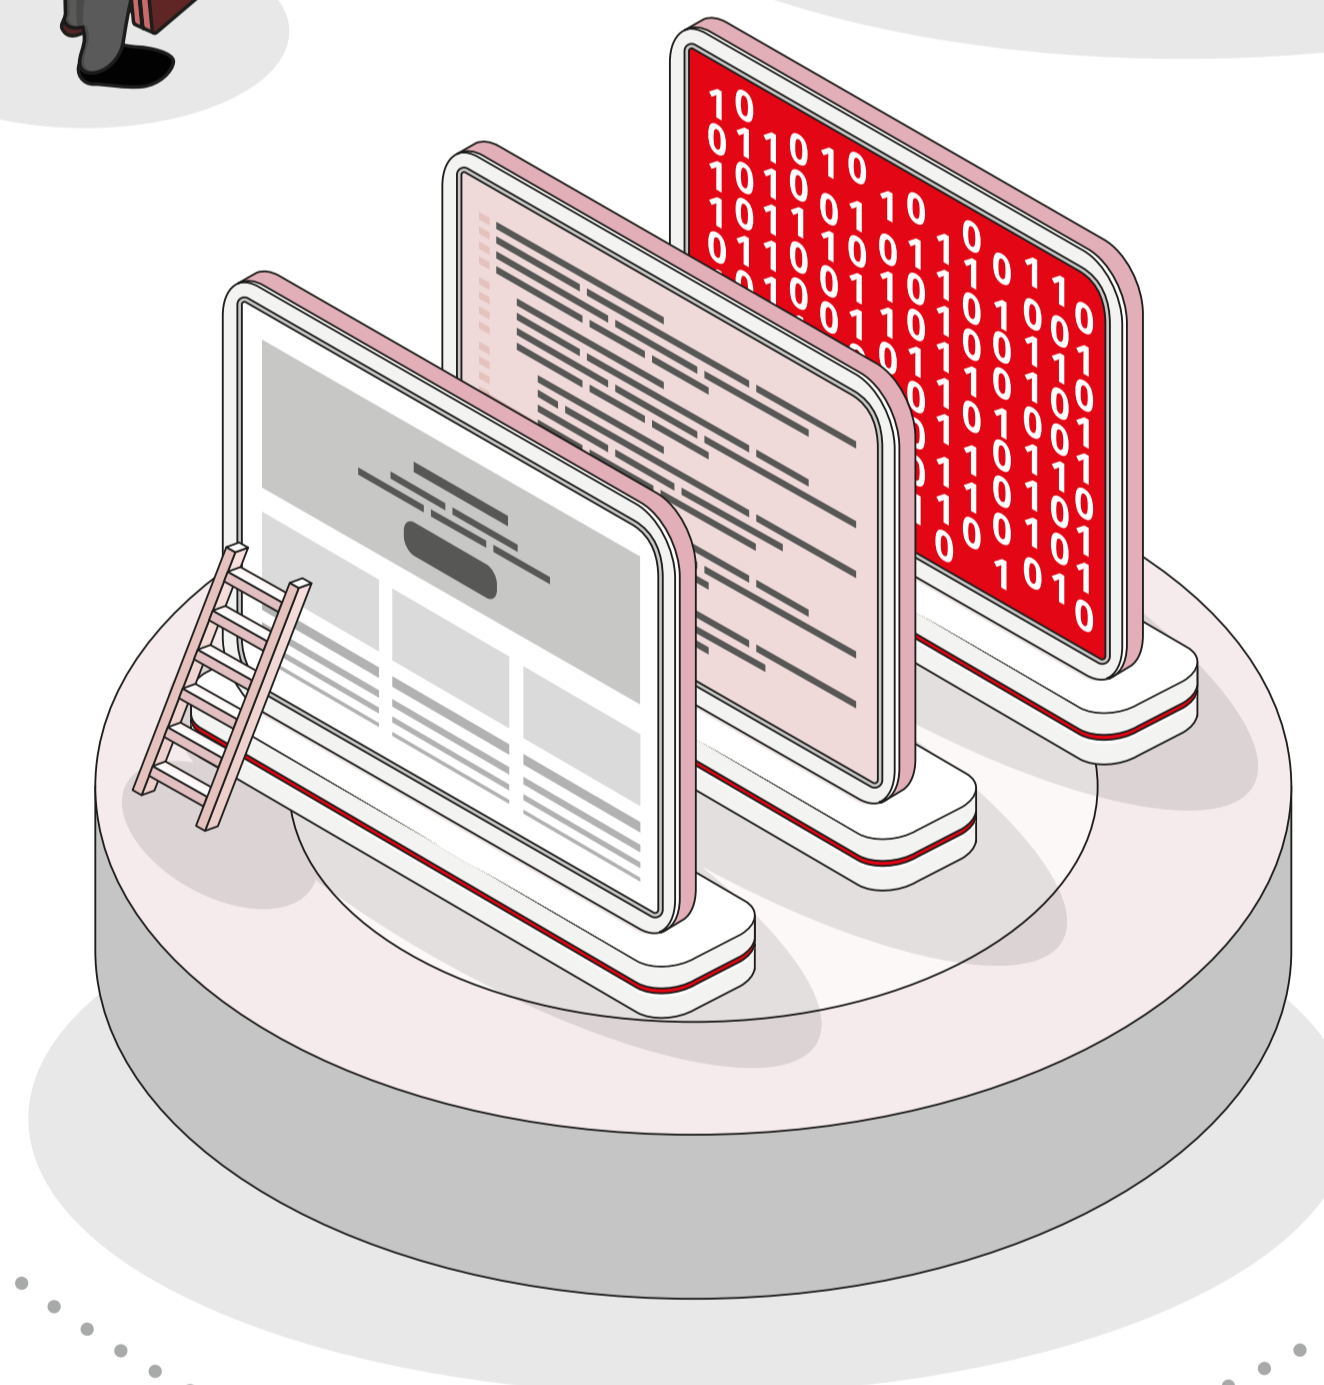

FACILITATING TRADE AND ECONOMIC OPPORTUNITIES

- **Networked Trade Platform** facilitates trade-related transactions and cross-border digital connectivity. It currently offers 17 e-services to approximately 5,500 companies.
- **Industry Transformation Maps (ITM)** are co-created by Government, industry, and unions to drive industry transformation, support the growth of our enterprises, and help Singaporeans take up quality jobs and seize opportunities. Each ITM consists of a sector-specific growth and competitiveness plan, covering areas such as productivity, internationalisation, innovation, digitalisation, and jobs and skills.

DEVELOPING ONE-STOP PLATFORMS

- ★ **The Singpass app** will allow Corppass users to access their companies' profile and related information without going to multiple sources
- ★ The newly-launched **GoBusiness dashboard** allows users to register for new businesses and track status of their license applications.

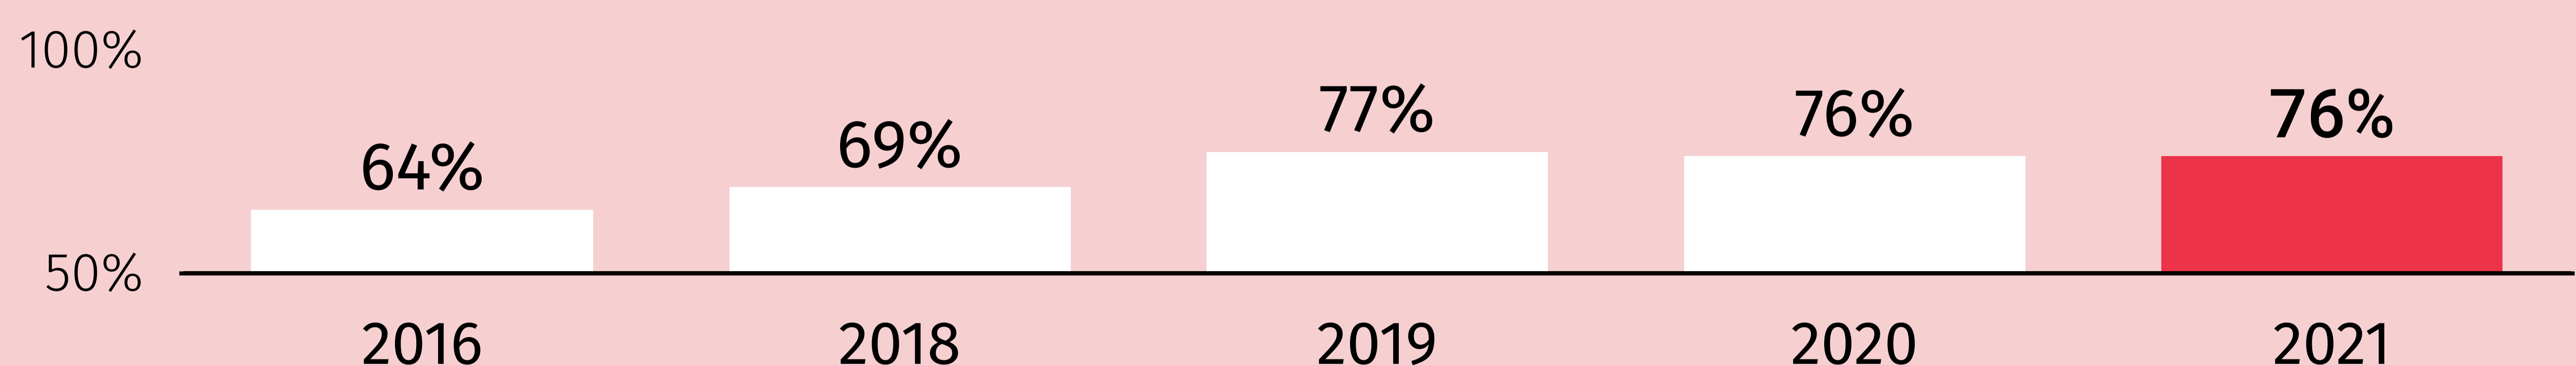

Businesses and entities (including non-profit organisations and associations) can view company details like awarded Government contracts and shareholders information on the go.

Businesses will also receive personalised recommendations for relevant grants.

★ New programmes and initiatives.
